

University of Dhaka

Department of Information Technology

Assignment on,

MITM 303 (Advanced Computer Networks and Internet Working)

Submitted to,

Dr. Md. Shariful Islam

Professor, IIT, DU.

Submitted by,

Name: Mostofa Aminur Rashid

Roll No: 2506107

1st Semester, MIT, DU.

The Basic HTTP **GET/response interaction**

Questions 1 to 7

1. Is your browser running HTTP version 1.0 or 1.1? What version of HTTP is the server running?

Answer: Browser: HTTP 1.1

The image shows a Wireshark packet capture of an HTTP GET request. The packet list on the left shows four packets: 591 (GET), 618 (200 OK), 650 (favicon.ico), and 683 (404 Not Found). The packet details pane for packet 591 is expanded, showing the Hypertext Transfer Protocol section. A red box highlights the 'Request Version: HTTP/1.1' field, with a red arrow pointing to it. The packet bytes pane on the right shows the raw data of the packet.

No.	Time	Source	Destination	Protocol	Length	Info
591	4.341444	40.40.9.226	128.119.245.12	HTTP	540	GET /wireshark-labs/HTTP-wireshark-file1.html HTTP/1.1
618	4.577545	128.119.245.12	40.40.9.226	HTTP	540	HTTP/1.1 200 OK (text/html)
650	4.781594	40.40.9.226	128.119.245.12	HTTP	486	GET /favicon.ico HTTP/1.1
683	5.030151	128.119.245.12	40.40.9.226	HTTP	538	HTTP/1.1 404 Not Found (text/html)

Frame 591: 540 bytes on wire (4320 bits), 540 bytes captured (4320 bits) on interface \Device\NPF_{D39F8ACF-4F74-4DBB-BB78-D636B11ACB0D}, id 0

Server: HTTP 1.1

The image shows a Wireshark packet capture of an HTTP 200 OK response. The packet list on the left shows four packets: 591 (GET), 618 (200 OK), 650 (favicon.ico), and 683 (404 Not Found). The packet details pane for packet 618 is expanded, showing the Hypertext Transfer Protocol section. A red box highlights the 'Response Version: HTTP/1.1' field, with a red arrow pointing to it. The packet bytes pane on the right shows the raw data of the packet.

2. What languages (if any) does your browser indicate that it can accept to the server?

Answer: English

Wireshark capture of an HTTP GET request. The packet list shows a GET request for /wireshark-labs/HTTP-wireshark-file1.html. The packet details pane shows the request headers, with 'Accept-Language: en-US,en;q=0.9' highlighted by a red box and a red arrow pointing to it. The packet bytes pane shows the raw data.

3. What is the IP address of your computer? Of the gaia.cs.umass.edu server?

Answer: My PC: 40.40.9.226 & Server: 128.119.245.12

Wireshark capture of an HTTP GET request. The packet list shows a GET request for /wireshark-labs/HTTP-wireshark-file1.html. The packet details pane shows the request headers, with 'Accept-Language: en-US,en;q=0.9' highlighted by a red box and a red arrow pointing to it. The packet bytes pane shows the raw data.

4. What is the status code returned from the server to your browser?

Answer: Status Code: 200

The image shows a Wireshark packet capture of an HTTP transaction. The packet list pane at the top shows four packets. Packet 618 is the HTTP response, which is expanded in the packet details pane. A red arrow points to the '200 OK' status code in the 'Hypertext Transfer Protocol' section. The packet bytes pane on the right shows the raw data of the response.

No.	Time	Source	Destination	Protocol	Length	Info
591	4.341444	40.40.9.226	128.119.245.12	HTTP	540	GET /wireshark-labs/HTTP-wireshark-file1.html HTTP/1.1

5. When was the HTML file that you are retrieving last modified at the server?

Answer: Last Modified: Sat, 03 May 2025 05:59:02 GMT

The image shows the same Wireshark packet capture as above, but with the 'Last-Modified' header highlighted in the packet details pane. A red arrow points to the 'Last-Modified' header value.

No.	Time	Source	Destination	Protocol	Length	Info
591	4.341444	40.40.9.226	128.119.245.12	HTTP	540	GET /wireshark-labs/HTTP-wireshark-file1.html HTTP/1.1
618	4.577545	128.119.245.12	40.40.9.226	HTTP	540	HTTP/1.1 200 OK (text/html)

 [Full request URI: http://gaia.cs.umass.edu/wireshark-labs/HTTP-wireshark-file1.html]
 File Data: 128 bytes
> Line-based text data: text/html (4 lines)

6. How many bytes of content are being returned to your browser?

Answer: Bytes: 128

Wireshark packet capture showing an HTTP 200 OK response. The packet listing window shows packet 618 as an HTTP GET request for /wireshark-labs/HTTP-wireshark-file1.html. The packet details window shows the response structure, including the Content-Length: 128 header, which is highlighted with a red box and an arrow. The packet bytes window shows the raw data in hexadecimal and ASCII.

7. By inspecting the raw data in the packet content window, do you see any headers within the data that are not displayed in the packet-listing window? If so, name one.

Answer: Content-Type: text/html; charset=UTF-8\r\n

Wireshark packet capture showing the same HTTP 200 OK response. The packet details window shows the response structure, including the Content-Type: text/html; charset=UTF-8\r\n header, which is highlighted with a red box and an arrow. The packet bytes window shows the raw data in hexadecimal and ASCII.

The HTTP CONDITIONAL GET/response interaction

Questions 8 to 11

8. Inspect the contents of the first HTTP GET request from your browser to the server. Do you see an “IF-MODIFIED-SINCE” line in the HTTP GET?

Answer: No, “IF-MODIFIED-SINCE” line.

The screenshot shows the Wireshark interface with a packet capture of an HTTP GET request. The packet list on the left shows packet 114 as the first GET request. The packet details pane on the right shows the structure of the request, including the method (GET), URI (/wireshark-labs/HTTP-wireshark-file2.html), and various headers like Host, Connection, and User-Agent. The packet bytes pane on the right shows the raw data of the request.

No.	Time	Source	Destination	Protocol	Length	Info

[Full request URI: http://gaia.cs.umass.edu/wireshark-labs/HTTP-wireshark-file2.html]

9. Inspect the contents of the server response. Did the server explicitly return the contents of the file? How can you tell?

Answer: Text return in response.

The screenshot shows the Wireshark interface with a packet capture of an HTTP 200 OK response. The packet list on the left shows packet 124 as the first response. The packet details pane on the right shows the structure of the response, including the status (200 OK), content type (text/html), and various headers like Content-Length, Keep-Alive, and Content-Type. The packet bytes pane on the right shows the raw data of the response. A red box highlights the "Line-based text data" section, which contains the HTML content of the response. A red arrow points to the "File Data" section, which contains the binary data of the file.

No.	Time	Source	Destination	Protocol	Length	Info
114	3.437094	40.40.9.226	128.119.245.12	HTTP	540	GET /wireshark-labs/HTTP-wireshark-file2.html HTTP/1.1

[Full request URI: http://gaia.cs.umass.edu/wireshark-labs/HTTP-wireshark-file2.html]
File Data: 371 bytes
Line-based text data: text/html (10 lines)
\n<html>\n\n\nCongratulations again! Now you've downloaded the file lab2-2.html.
\nThis file's last modification date will not change. <p>\nThus if you download this multiple times on your browser, a complete copy
\nwill only be sent once by the server due to the inclusion of the IF-MODIFIED-SINCE field in your browser's HTTP GET request to the server.\n\n</html>\n

10. Now inspect the contents of the second HTTP GET request from your browser to the server. Do you see an “IF-MODIFIED-SINCE:” line in the HTTP GET? If so, what information follows the “IF-MODIFIED-SINCE:” header?

Answer: If-Modified-Since: Sat, 03 2025 05:59:02 GMT\r\n

The image shows a Wireshark packet capture window titled "Wi-Fi". The packet list pane at the top shows four packets. Packet 1367 is selected, showing a GET request from 40.40.9.226 to 128.119.245.12. The packet details pane below shows the structure of the packet, including Ethernet II, Internet Protocol Version 4, Transmission Control Protocol, and Hypertext Transfer Protocol. The Hypertext Transfer Protocol section is expanded, showing the request line and various headers. The "If-Modified-Since" header is highlighted with a red box and a red arrow pointing to it. The header value is "Sat, 03 May 2025 05:59:02 GMT\r\n". The packet bytes pane on the right shows the raw data of the packet.

11. What is the HTTP status code and phrase returned from the server in response to this second HTTP GET? Did the server explicitly return the contents of the file? Explain.

Answer: 304 Not Modified. The server did not explicitly return the contents.

The image shows a Wireshark packet capture window titled "Wi-Fi". The packet list pane shows four packets. Packet 1372 is an HTTP response with status code 304 (Not Modified). The packet details pane for packet 1372 shows the following information:

- Frame 1372: 293 bytes on wire (2344 bits), 293 bytes captured (2344 bits) on interface \Device\NPF_{D39F8ACF-4F74-4DB8-BB78-D636B11ACB0D}, id 0
- Ethernet II, Src: Routerboardc_67:3d:40 (08:55:31:67:3d:40), Dst: Intel_47:d5:29 (80:86:f2:47:d5:29)
- Internet Protocol Version 4, Src: 128.119.245.12, Dst: 40.40.9.226
- Transmission Control Protocol, Src Port: 80, Dst Port: 52832, Seq: 731, Ack: 1085, Len: 239
- Hypertext Transfer Protocol
 - HTTP/1.1 304 Not Modified\r\n
 - Response Version: HTTP/1.1
 - Status Code: 304
 - [Status Code Description: Not Modified]
 - Response Phrase: Not Modified
 - Date: Sun, 04 May 2025 04:41:41 GMT\r\n
 - Server: Apache/2.4.6 (CentOS) OpenSSL/1.0.2k-fips PHP/7.4.33 mod_perl/2.0.11 Perl/v5.16.3\r\n
 - Connection: Keep-Alive\r\n
 - Keep-Alive: timeout=5, max=99\r\n
 - ETag: "173-63434f6b5aea7"\r\n
 - \r\n

The packet bytes pane on the right shows the raw data of the response, including the status line and headers.

Retrieving Long Documents

Questions 12 to 15

12. How many HTTP GET request messages did your browser send? Which packet number in the trace contains the GET message for the Bill or Rights?

Answer: 1 HTTP GET request send & Packet Number is 650.

The screenshot shows the Wireshark interface with a packet capture of an HTTP GET request. The packet list pane shows four packets, with packet 650 highlighted. The packet details pane shows the structure of the HTTP GET request, including the host, connection, and user-agent. The packet bytes pane shows the raw data of the request.

No.	Time	Source	Destination	Protocol	Length	Info
650	3.726263	40.40.9.226	128.119.245.12	HTTP	540	GET /wireshark-labs/HTTP-wireshark-file3.html HTTP/1.1
666	4.015041	128.119.245.12	40.40.9.226	HTTP	535	HTTP/1.1 200 OK (text/html)
679	4.214349	40.40.9.226	128.119.245.12	HTTP	486	GET /favicon.ico HTTP/1.1
695	4.504012	128.119.245.12	40.40.9.226	HTTP	538	HTTP/1.1 404 Not Found (text/html)

Frame 650: 540 bytes on wire (4320 bits), 540 bytes captured (4320 bits) on interface \Device\NPF_{D39F8ACF-4F74-40BB-BB78-D636B11ACB0D}, id 0

13. Which packet number in the trace contains the status code and phrase associated with the response to the HTTP GET request?

Answer: Packet 666

The screenshot shows the Wireshark interface with a packet capture of an HTTP 200 OK response. The packet list pane shows four packets, with packet 666 highlighted. The packet details pane shows the structure of the HTTP 200 OK response, including the status code, date, server, and content-type. The packet bytes pane shows the raw data of the response.

No.	Time	Source	Destination	Protocol	Length	Info
650	3.726263	40.40.9.226	128.119.245.12	HTTP	540	GET /wireshark-labs/HTTP-wireshark-file3.html HTTP/1.1

14. What is the status code and phrase in the response?

Answer: Status Code: 200

The image shows a Wireshark packet capture of an HTTP response. The packet list pane shows a list of packets, with packet 666 selected. The packet details pane shows the structure of the selected packet, including Ethernet II, Internet Protocol Version 4, Transmission Control Protocol, and Hypertext Transfer Protocol. The Hypertext Transfer Protocol section shows the status code 200 OK. A red box highlights the status code and phrase, and a red arrow points to it from the text 'Answer: Status Code: 200'.

No.	Time	Source	Destination	Protocol	Length	Info

15. How many data-containing TCP segments were needed to carry the single HTTP response and the text of the Bill of Rights?

Answer: 9 TCP segments.

The image shows a Wireshark packet capture of an HTTP response. The packet list pane shows a list of packets, with packet 666 selected. The packet details pane shows the structure of the selected packet, including Ethernet II, Internet Protocol Version 4, Transmission Control Protocol, and Hypertext Transfer Protocol. The Hypertext Transfer Protocol section shows the status code 200 OK. A red box highlights the status code and phrase, and a red arrow points to it from the text 'Answer: Status Code: 200'.

HTML Documents with Embedded Objects

Questions 16 to 17

16. How many HTTP GET request messages did your browser send? To which Internet addresses were these GET requests sent?

Answer: 3 HTTP GET request & 128.119.245.12 and 178.79.137.164 IP were sent GET request.

The screenshot shows a Wireshark packet capture of an HTTP session. The packet list on the left shows several HTTP GET requests. Red boxes highlight the source IP addresses 128.119.245.12 and 178.79.137.164, and red arrows point to the corresponding GET requests in the packet list. The packet details pane on the right shows the structure of the selected HTTP packet, including the request line, headers, and the request URI.

No.	Time	Source	Destination	Protocol	Length	Info
51	2.451595	40.40.9.226	128.119.245.12	HTTP	540	GET /wireshark-labs/HTTP-wireshark-file4.html HTTP/1.1
128	2.809473	128.119.245.12	40.40.9.226	HTTP	1355	HTTP/1.1 200 OK (text/html)
137	2.924260	40.40.9.226	128.119.245.12	HTTP	486	GET /pearson.png HTTP/1.1
160	3.232373	128.119.245.12	40.40.9.226	HTTP	745	HTTP/1.1 200 OK (PNG)
175	3.484612	40.40.9.226	178.79.137.164	HTTP	453	GET /8E_cover_small.jpg HTTP/1.1
183	3.673231	178.79.137.164	40.40.9.226	HTTP	225	HTTP/1.1 301 Moved Permanently

17. Can you tell whether your browser downloaded the two images serially, or whether they were downloaded from the two web sites in parallel? Explain.

Answer: Download in parallel & browser sent two GET requests to retrieve two images simultaneously.

The screenshot shows a Wireshark packet capture of an HTTP session. The packet list on the left shows several HTTP GET requests. Red boxes highlight the source IP addresses 128.119.245.12 and 178.79.137.164, and red arrows point to the corresponding GET requests in the packet list. The packet details pane on the right shows the structure of the selected HTTP packet, including the request line, headers, and the request URI.

HTTP Authentication

Questions 18 to 19

18. What is the server's response (status code and phrase) in response to the initial HTTP GET message from your browser?

Answer: HTTP/1.1 401 Unauthorized \r\n

The screenshot shows a Wireshark capture of an HTTP transaction. The packet list on the left shows several packets, with packet 721 (HTTP/1.1 401 Unauthorized) highlighted. The packet details pane on the right shows the structure of the HTTP response, including the status code 401 and the phrase 'Unauthorized'. A red arrow points to the status line 'HTTP/1.1 401 Unauthorized\r\n' in the details pane.

No.	Time	Source	Destination	Protocol	Length	Info

[Request URI: /wireshark-labs/protected_pages/HTTP-wiresharkfile5.html]

19. When your browser's sends the HTTP GET message for the second time, what new field is included in the HTTP GET message?

Answer: Authorization: Basic d2lyZXNoYXJrLXN0dWRlbnRzOm5ldHdvcmcs=\r\n

The screenshot shows a Wireshark capture of a second HTTP transaction. The packet list on the left shows several packets, with packet 864 (HTTP GET) highlighted. The packet details pane on the right shows the structure of the HTTP request, including the Authorization header. A red arrow points to the Authorization header 'Authorization: Basic d2lyZXNoYXJrLXN0dWRlbnRzOm5ldHdvcmcs=\r\n' in the details pane.

No.	Time	Source	Destination	Protocol	Length	Info
